

When it comes to IFA fund management
think again

You can with

**HIND
SIGHT**

Hindsight is the result of a vision

A new way of interacting with investment markets, developed to address the challenges of existing systems and in turn answer the increasingly complex needs of clients

**“We think
Hindsight
will give you
what you want”**

**“I want to be
at the forefront
of modern
independent
financial
management”**

You can

by taking advantage of our innovative approach to fund management and the unique relationships we have built within the financial markets.

The image features a teal background with three orange circles. The largest circle is on the left and contains white text. Two smaller circles are positioned to the right, one above the other, and they are empty.

**“I want the
ability to create
my own branded
products”**

You can

by taking control of your own branded
SIPPs, ISAs, Offshore Bonds and GPPs.

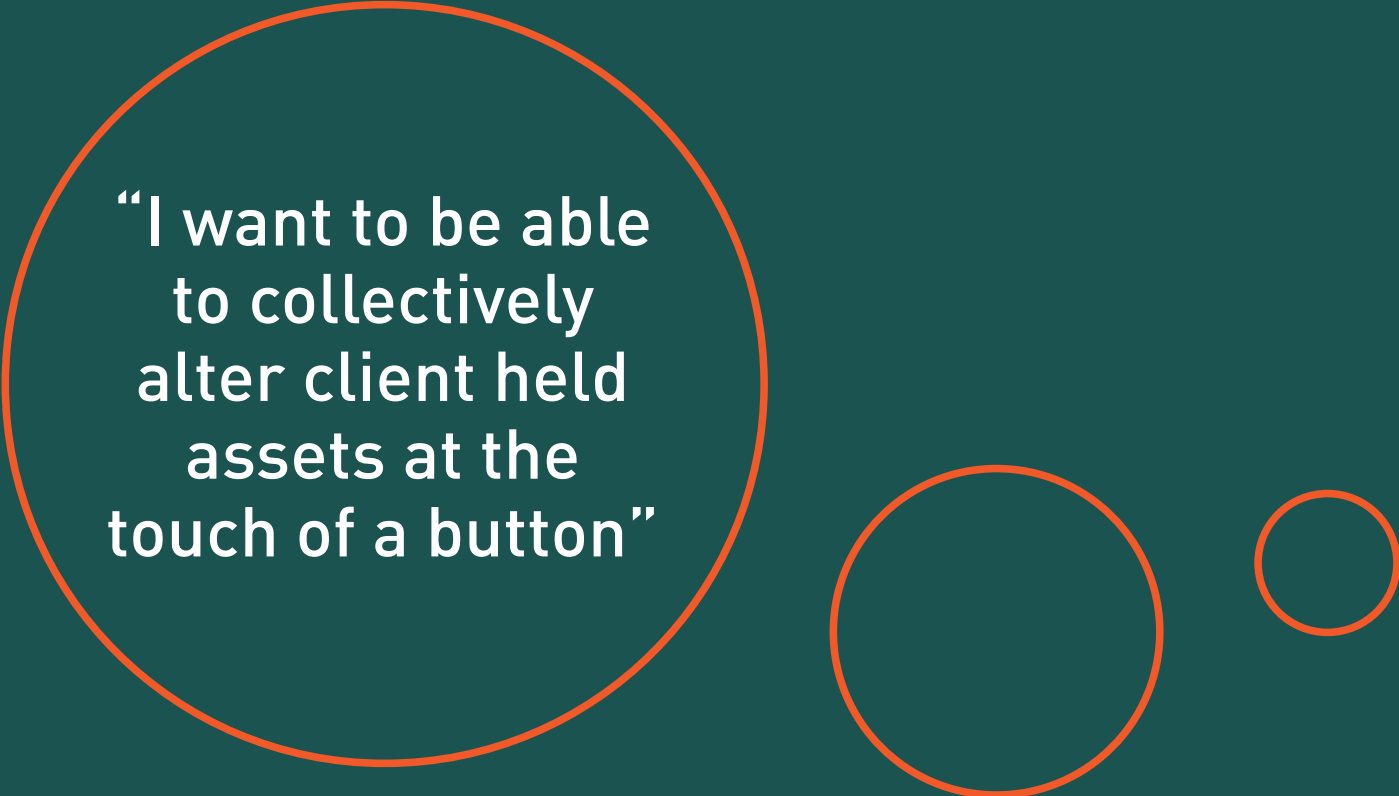

**“I want the
independence
to adapt my own
offering to suit my
needs and those of
my clients”**

You can

by creating your own investment strategy via access to the most cost effective tax wrappers in the UK rather than settling for company owned OEIC structures or prescribed lists of funds and assets.

“I want to be able
to collectively
alter client held
assets at the
touch of a button”

You can

with discretionary run portfolios that provide the ability to quickly and efficiently adapt to markets and make required changes.

**“I want to minimise
compliance risk”**

You can

with consistent terminology and recommendations for target driven or asset allocation models.

**“I want to reduce
costs and increase
efficiency”**

You can

through the use of specially developed platforms and established relationships designed to cut costs, ease administrative pressures and increase profits.

“I want to ensure
my services are not
too expensive for
my clients”

You can

by buying funds at institutional rates, costs are kept to a minimum. No trail commission is taken from the purchased assets and there are no additional “marketing allowances” making the process clean and transparent.

“Ultimately I want to create a robust, scaleable IFA practice that increases profits and reduces administration. To have the ability to build and strengthen client relationships through offering, true active fund management and cost effective products”
